In 2024 we will offer a **Super Intensive Face-to-face** for those who want to develop themselves even more, and to be experts in the **art of facilitating** Organizational Constellations.

- + **7 intensive days** with a break in the middle of the week (one afternoon), so you can take advantage of everything taught and experienced.
- + An **open, practical, and experiential** program, in which we will explore details, techniques and all doubts.
- + 3 intensive trainings spoken in three different languages.

We will develop the **mastery** of each participant, so you can make a **quantum leap** in the application of Organizational Constellations.
